Serial No : 09/936,805

Group Art Unit: 3732

Filed : September 17, 2001

Examiner: O'Connor, C. E.

For : LOW PROFILE ANASTOMOSIS CONNECTOR

SEVENTH SUPPLEMENTARY INFORMATION DISCLOSURE STATEMENT

Hon. Commissioner of Patents and Trademarks
P.O. Box 1450
Alexandria, VA 22313-1450

RECEIVED

MAY 12 2004

TECHNOLOGY CENTER 3700

Sir:

Applicants respectfully direct the attention of the Examiner to additional art cited with respect to U.S. Application No. 09/936,805 which is a U.S. national phase under 35 U.S.C. §371 of PCT Application No. PCT/IB00/00310, filed on March 20, 2000. The present application is also a continuation-in-part (CIP) under 35 U.S.C. §111(a) of U.S. Application No. 09/701,531, U.S. Application No. 09/701,523, U.S. Application No. 09/936,806 and U.S. Application No. 09/936,789.

The Examiner is respectfully requested to review and consider this art, in accordance with MPEP 2001.06, MPEP 1893.03(e) and MPEP 1893.03(g) and to indicate in the next office action that he has considered this art. Additionally, the Examiner is respectfully requested to cite those prior art publications mentioned in this application which the Examiner considers to be material or relevant to the present claims.

Further, in order to comply with discretionary regulations 37 C.F.R. §1.97 and §1.98, attached is an Equivalent to Form PTO-1449 listing the cited art. Also attached are copies¹ of the art. This art contains information which the Examiner may consider to be important in deciding whether to allow the present application to issue as a patent.

¹ To the extent that a document is listed and no copy of same is attached, then such document is not at the present time available to the undersigned or is available in the national stage file. If a listed document is not in the English language and an English translation is readily available, such translation is also attached; if translation is not attached, it is not readily available to the undersigned. If a foreign language patent document is cited, and an English language equivalent is known to the undersigned, then such an equivalent patent is also cited on the attached form along with the corresponding foreign language patent and a connecting arrow indicated therebetween; if no such English language equivalent is cited then none is known to the undersigned.

Applicants wish to point out that item 2 was cited on the Written Opinion, dated January 14, 2004, of PCT Application No. PCT/IL02/00790, a copy of which is attached hereto. Copy of item 2 is not attached as it is available in parent file U.S. Application No. 09/701,531 filed on November 28, 2000.

Applicants further wish to point out that items 7, 16 and 19 were cited on the International Search Report, dated January 21, 2004, of PCT Application No. PCT/IL03/00770, a copy of which is also attached hereto along with copy of item 16. Copies of items 7 and 19 are not attached as they are available in parent file U.S. Application No. 09/936,805 filed on September 17, 2001.

Additionally, items 8, 15, and 17 were cited on the International Search Report, dated February 3, 2004, of PCT Application No. PCT/IL03/00769, a copy of which is also attached hereto. Copies of items 8, 15, and 17 are not attached as they are available in parent file U.S. Application No. 09/701,531 filed on November 28, 2000.

In addition, items 9, 11, and 14 were cited on the International Search Report, dated February 3, 2004, of PCT Application No. PCT/IL03/00774, a copy of which is also attached hereto. The other item mentioned on this Search Report was already cited in the present application (i.e. U.S. Patent No. 5,250,058 was cited in an earlier Information Disclosure Statement.) Copies of items 9, 11, and 14 are not attached as they are available in parent file U.S. Application No. 09/701,531 filed on November 28, 2000.

Moreover, items 1, 3-5, and 10 were cited on the International Search Report, dated February 11, 2004, of PCT Application No. PCT/IL03/00771, a copy of which is also attached hereto. Copies of items 1, 3-5, and 10 are not attached as they are available in parent file U.S. Application No. 09/701,531 filed on November 28, 2000.

Item 6 was cited on the Notice of Allowance, dated January 28, 2004, of U.S. Application No. 10/221,982. Copy of this item is attached hereto. The other items mentioned on this Notice of Allowance were already cited in the present application (i.e. U.S. Patent No. 5,275,622, U.S. Patent No. 5,957,973 and U.S. Patent No. 6,004,330 were cited in an earlier Information Disclosure Statement) and U.S. Patent No. 6,632,241 was filed after the international filing date of the present application, i.e. U.S. Application No. 09/936,805.

Items 18, 20, and 21 were cited on the Supplementary European Search Report, dated April 20, 2004, of European Patent Application No. 99 92 2479, a copy of which is also attached hereto. The other item mentioned on this Search Report was already cited in the

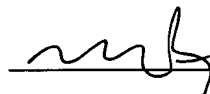

present application (i.e. U.S. Patent No. 4,214,587 was cited in an earlier Information Disclosure Statement.)

In accordance with MPEP Section 609 it is requested that each document cited [including any mentioned in Applicants' specification which is not repeated on the attached (or prior) PTO-1449 form(s) or equivalent(s) thereof] be given thorough consideration and be cited of record in the prosecution history of the present application by initialing on the PTO-1449 form or equivalent, so that it will appear on the face of the patent issuing on the present application, even if the Examiner does not consider it sufficiently pertinent to use in a rejection, or otherwise does not believe that the guidelines for citation have been fully complied with.

The present Information Disclosure Statement is being submitted in compliance with 37 C.F.R. §1.56 as an Examiner might consider any cited document important in deciding whether to allow the application to issue as a patent, but the citation of each document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 C.F.R. §1.104(a), and in the course of such search will review for relevance every document cited on the attached form.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,
Amir LOSHAKOVE et al.
